

# NOTICE OF CHANGE

As an open and candid organisation, we feel it is important that we acknowledge our current Safeguarding of Vulnerable Adults Policy, is published with a review date of May 2024, and that this time has elapsed. A thorough and complete review of the safeguarding policies and procedures at The Meath has been undertaken, and as such new documentation is being produced and scrutinised within the organisation, to reflect our new practices and our unwavering commitment to ensuring the highest standards in safeguarding the residents in our care. The changes in our policies and procedures includes (non-exhaustive list):

- Measures to ensure even closer oversight of all safeguarding reports at The Meath
- Higher levels of training and responsibility for many levels of staff
- Greater access to, and synergy with, our statutory & regulatory partners
- Stronger emphasis on the recognition and reporting of potential safeguarding concerns

This new document will be published in October 2024 and will be made publicly available via our website.

Should you have any queries in this interim period with regards to our ongoing Safeguarding Adults policy, procedure or documentation please feel free to contact Daniel Wills, our Quality & Compliance Manager who will be more than happy to help.
